

# Troubleshooting Graduation Reports

*The Ohio Department of Education funds development of EMIS training materials as part of the EMIS Alliance grant. There is an expectation that ITCs will utilize these materials in training provided to your districts. That said, there are restrictions on use of the EMIS Alliance materials as follows: Materials developed as part of the EMIS Alliance program must be provided at no cost to your training participants. If you utilize the EMIS Alliance training materials – in whole or in part – you must not charge participants a fee to attend the class where the materials are used. Likewise, you may not use the materials or any portion thereof in any event where a fee is charged to attend. Exceptions must be approved in writing by the Department of Education in advance of scheduling/promoting any event which may violate these restrictions.*

*Questions regarding appropriate use of EMIS Alliance materials, or requests for exception to the restrictions noted above, should be directed to Melissa Hennon [[Melissa.Hennon@education.ohio.gov](mailto:Melissa.Hennon@education.ohio.gov)].*

# Overview

- Graduation Reports
  - Generated using EMIS data reported by traditional districts, JVSDs, community schools, and STEM schools
  - Used to verify students have met graduation requirements as expected
  - Available to LEAs who report graduates through the Graduate Collection
- This presentation will focus on troubleshooting the reports to verify graduation data

# Grad Cohort Reports

# Graduation Cohort Reports

- Level 2 Reports in FY19 Graduate Collection
- Reflect the status of students who have been assigned to a specific graduation cohort for graduation rate purposes
- Contain student graduate data that should be verified for accuracy and completeness
- Contain numerator and denominator data of the graduation rate for that cohort
- Contain flags to indicate passage of graduation pathways

# Graduation Rates and the LRC

- 2019 four year and 2018 five year graduation rates will appear on the 19-20 Local Report Card (LRC)
  - 2019 four year graduation rate uses a denominator of students for which the district is accountable and a numerator of on time graduates
  - 2018 five year graduation rate uses a denominator of students for which the district is accountable and a numerator of four year on time graduates plus students who graduated within five years

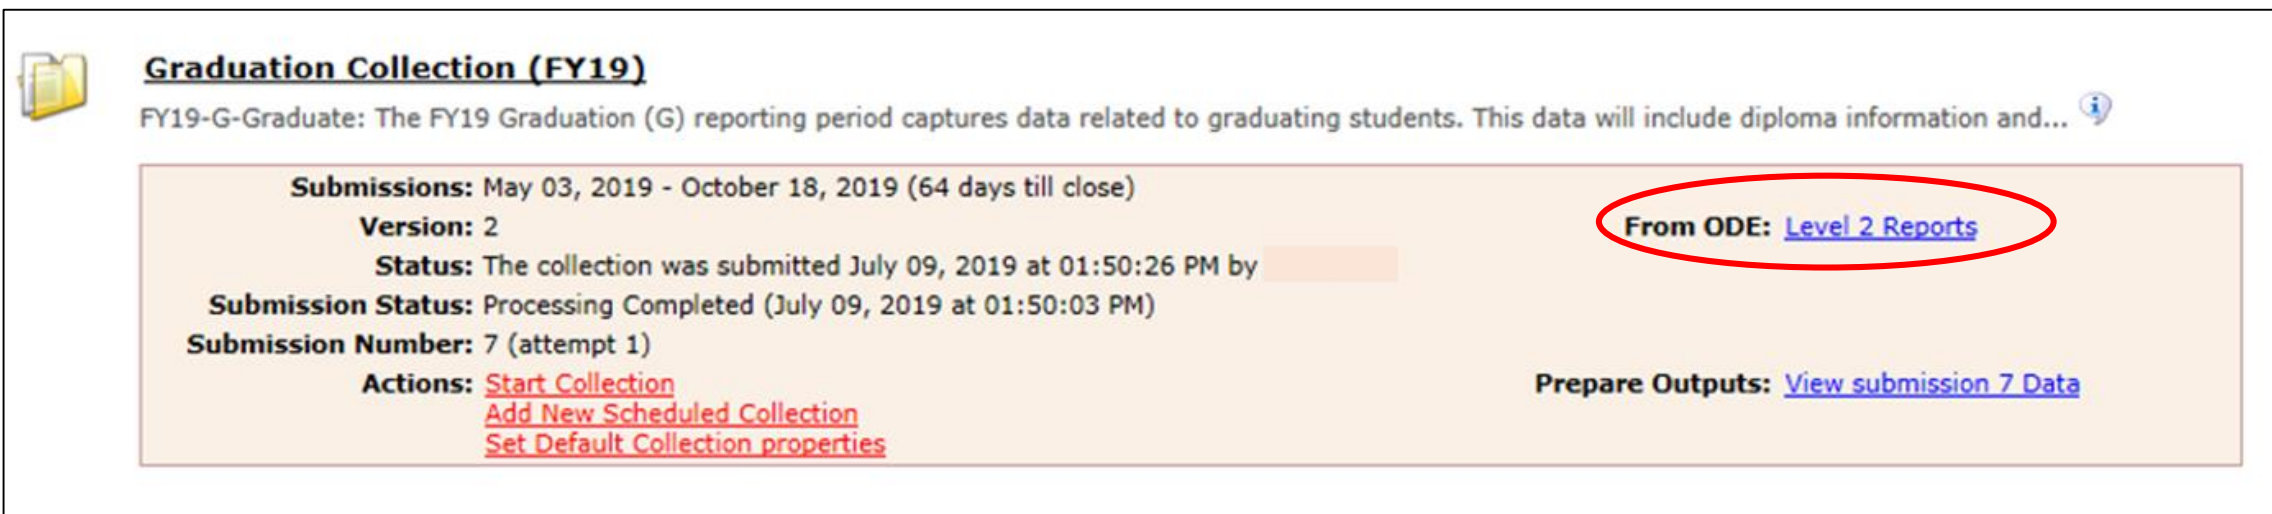

# Graduate Collection Level 2 Reports

# Where Students Count for Graduation

In the next series of slides we will filter on each result code and discuss each situation

- Currently there are four result codes which indicate where the student will count for accountability measures
  - Count in a district
  - Count in a different district
  - Count at the state level
  - Not count in any district or at the state level
- We will show how the student looks in ODDEX as we look at each result code

# Result Codes and the Graduation Rate

## Count in this LEA's graduation rate

- GR0000 Student accountable in this LEA
- Students the LEA is educating and or responsible for educating
- Students who are sent to a Special Education Coop
  - Sent to SE
- Students attending a STEM district or STEM building
  - Count at both the educating entity and the district of residence
- Denominator Flag is set to Y for these students

# Result Codes and the Graduation Rate, cont'd

## Do not count in this LEA's Graduation Rate

- GR9997 Student accountability moved to another LEA
  - 41 Transferred to Another Ohio School District

# Withdrawal Override (FC) Record

Student reported as withdrawn to another district but remains in the withdrawing district's cohort

- SSIDs whose withdrawal was reported with an incorrect date or reason in a prior school year, and SSIDs for whom the EMIS reporting entity has received new information since the withdrawal was reported which indicates that the withdrawal reason should be updated in order for the student to properly count within the longitudinal graduation rate
- Report a Student Withdrawal Override (FC) Record in 19G to report a correct withdrawal code
- Retain documentation to support this change

# SSIDs and the Graduation Rate

- When a student moves from one LEA to another, the subsequent LEA must report the student with the same SSID as the prior district
- When a different SSID is reported by the subsequent LEA, the student will appear in both LEA graduation rates as he or she appears to be two different students
- If the prior district discovers that the withdrawn student remains in their graduation rate after their ability to report the student to EMIS has closed, they should delete (aka deactivate) their SSID on the SSID website and link it to the SSID being reported by the subsequent educating district

## Quick Check

Graduation Cohort Reports allow districts to verify cohort members and to calculate their graduation rate for current cohort and future cohorts. These reports should be reviewed carefully to verify that all students are counting correctly.

- Are the students counting in your graduation rate correctly?
- Are you able to calculate your graduation rate?
- Have you reported Withdrawal Override (FC) Records as needed?

- Can you access pathway reports in the Data Collector?
- Are you able to prepare the reports for review?
- Can you add names to the report using CONCATENATE and VLOOKUP?

## Quick Check

Graduation reports contain EMIS data that is used to determine if the student has met one or more graduation pathways. The data should be reviewed now to look for additional EMIS data that still needs to be reported.

- Are all expected 2019 cohort students appearing on the pathway reports?
- Is there EMIS data missing from the report that needs to be reported?
- Are these reports being shared with others in the district to verify accuracy and completeness of the data?
