

Troubleshooting the Teacher Licensure Course Status Report

1

The Department of Education and Workforce funds development of EMIS training materials as part of the EMIS Alliance grant. There is an expectation that ITCs will utilize these materials in training provided to your districts. That said, there are restrictions on use of the EMIS Alliance materials as follows: Materials developed as part of the EMIS Alliance program must be provided at no cost to your training participants. If you utilize the EMIS Alliance training materials – in whole or in part – you must not charge participants a fee to attend the class where the materials are used. Likewise, you may not use the materials or any portion thereof in any event where a fee is charged to attend. Exceptions must be approved in writing by the Department of Education and Workforce in advance of scheduling/promoting any event which may violate these restrictions.

Questions regarding appropriate use of EMIS Alliance materials, or requests for exception to the restrictions noted above, should be directed to Melissa Hennon [Melissa.Hennon@education.ohio.gov].

Overview

- Teacher Licensure Course (TLC) Status Report
 - Includes all courses reported to EMIS and the proper certification status of the teacher of record
 - Is generated for all EMIS reporting entities and updated nightly
 - Is used to provide data for Local Report Cards (LRC) and for certain state and federal funding
 - Is used to create the ESSA State Licensure Assurances Report
 - Is used to create the Educator Access Data Analysis Tool
- This presentation will focus on troubleshooting the TLC Status Report, which is generated during the Initial Staff and Course (L) Collection

Certification Data on LRC

The LRC contains data from the Initial Staff and Course Collection that is used to populate the school and district details

Your District's Teachers

Attendance Rate	Average Salary	Avg. Years of Experience	Lead or Senior Teachers
94.2%	\$60,254	18	0

	All Schools in the District	High Poverty Schools	Low Pove Schools
Percentage of teachers with at least a Bachelor's Degree	100.0	0.0	100.0
Percentage of teachers with at least a Master's Degree	66.6	0.0	70.5
Percentage of inexperienced teachers	3.6	0.0	2.4
Percentage of inexperienced principals	33.3	0.0	16.7
Percentage of teachers who are not teaching in the subject or field for which the teacher is certified or licensed	0.8		0.6
Percentage of teachers teaching with temporary or conditional credentials	0.0		0.0

<https://reportcard.education.ohio.gov>

The “not properly credentialed” teacher measure is also now on the Student Opportunity Profile within the LRC, which is getting more attention than staff measures have in the past

A district's high poverty schools are those ranked in the top quartile based on the percentage of the district's economically disadvantaged students. Low-poverty schools are those ranked in the bottom quartile based on the percentage of economically disadvantaged students. A district may have buildings in both quartiles, in just one quartile, or in neither quartile.

ESSA State Licensure Assurances Report

- Reflects the State certification and licensure determination for each core academic course, building, and teacher from the TLCS report
 - ESSA requires schools and programs receiving Title I funds to ensure that all teachers and paraprofessionals working in a program supported with these funds meet applicable state certification and licensure requirements
 - Finalized with the close of Initial Staff and Course (No Appeal)
 - Be sure to verify the TLCS report before the collection closes!
 - Arrived as a *Received* file in FY23 in January and February of 2023
 - 20##L_PRIN_ESSA_Licensure_Assurances_<file date>.pdf
 - Be sure to report correct credential IDs and staff names and question when either does not appear correctly on any of your reports

Equitable Access Data Analysis Tool

ODE Office of Educator Effectiveness provide districts this report to use for Title I equity planning

- The revised analysis tool for FY24 will compare student groups within schools on the percent that have teachers who are not properly certified for the courses students are taking
- The revised tool to be released in January will also be in the SDC
- District administrators will still use the analysis tool to identify student groups who have less access to quality educators
 - The Department recommends attending Equity Labs starting in January to get training on how to use this revised tool
- Questions – equity@education.ohio.gov

Quick Check

The TLC Status Report is updated nightly and should be reviewed throughout the Initial Staff and Course Collection. Data on your report could appear based on another entity's reporting, so review the report even when you are not reporting any changes.

- Are you using the most recent version of the report?
- Have you corrected Level 1 Validation errors, excluded records, and missing staff?
- Are you able to open and format your TLC Status report?

11

Understanding the TLC Status Report

12

TLC Status Report Data

- Data from the following collections are used to generate the TLC Status Report
 - Staff and Course (L) Collection - Initial
 - Final Calendar (C) Collection
 - Beginning of Year Student (S) Collection
 - Midyear Student (S) Collection
 - SOES Beginning of Year Student (S) Collection
 - SOES End of Year Student (S) Collection
- Verify data is correct and complete in ALL noted collections
- Report is generated nightly with data submitted by 5pm throughout the Initial Staff and Course Collection
- The TLC Status Report is finalized at the close of the Initial Staff and Course (L) Collection
 - There is no appeal for Initial Staff and Course (L)

TLC Status Report Data

Contains one row per Local Classroom Code

- First 11 columns include:
 - Location IRN of the building where the course is being taught
 - Subject Code, Description, and Local Classroom Code
 - Teacher of Record and State Staff ID
 - Blank or incorrect staff name
 - CJ record issue – not reported by another EMIS reporting entity (example: ESC)
 - Could be due to upper- and lower-case letters in state staff ID - Verify ID

Verify Staff and Courses

- Do **not** focus on errors only; review the entire report for accuracy and completeness
 - Are all building IRNs appearing on the report?
 - Are all teaching staff appearing as they should?
 - Are all courses for each building appearing on the report?
- Remember that total courses are the denominator for Local Report Card staff percentages, so it's important that every course is accounted for

15

Verify Staff and Courses, cont'd

- The Department has been seeing an increase in the percentage of all courses that aren't reported in the Initial Staff/Course collection, but are reported only in the Final collection
 - Report all courses in the Initial Staff/Course collection that are possible to report
- Another reason for all courses to be reported as soon as possible during the year, is because the Department use this data to supply to the US Department of Education a list of areas where there is a need for more teachers, and therefore which areas teachers should be eligible for student loan waivers and forgiveness
 - Reporting all courses could open more of these opportunities for all teachers

16

Teacher of Record

The teacher who appears on the TLC Status Report is based on

- Teacher with greater amount of time teaching the course
- When multiple teachers are teaching the same amount of time
 - If both teachers are properly certified, the teacher selected on the report will depend on the processing order and could change from report to report
 - If one of the two teachers is properly certified, then the properly certified teacher will appear on the report each time it is generated
 - If no properly certified teacher is found, the report uses the first teacher it comes to and could change from report to report

17

Course and Calendar Dates

- Dates are used to determine a “course calendar”
 - Grade Schedule (DL) Record - First and Last Day of School
 - Course Master (CN) Record - Course Start and End Date
 - Staff Course (CU) Record - Staff Course Start and End Dates
 - Student Course (GN) Record - Course Enrollment Start and End Date
- The “course calendar” is then used to determine
 - Teacher who was with the course the longest
 - Students who are counted as being in the class
 - Location IRN is used for course calendar assignment
- Misaligned dates can cause teachers to appear as not properly certified

18

Location IRN

The building IRN where course is being taught

- District IRN should not be reported as the Location IRN
- Applies to LEAs that have both district and building IRNs
 - Traditional Districts
- Refer to reporting instructions in the EMIS Manual for Location IRN in section 4.2 Course Master (CN) Record
- Filter TLC Report for Location IRN
 - Unselect local building IRNs
 - Verify Location IRN's reported outside of District
 - Local district IRN should be changed to building IRN (when applicable)

Location IRN

A few exceptions (not a complete list)

- IRN of college who is granting credit for CCP course
- For CCP Course with delivery method of CP report the IRN of the location of the course per the CTE-26
- IRN of the location of the JVSD satellite course
- IRN of the building associated with the preschool license
- See additional reporting instructions for the Location IRN in the 4.2 Course Master (CN) Record section of the EMIS Manual

TLC Status Report Columns

Moving to the right, the next set of columns L through P contain

- Result Codes with Descriptions
- Proper Certification Flag (Yes or No)

 - Teacher must hold a special education license to appear as properly certified to teach a course with a student population of SE
- If the content is not modified for special education population, report with an RG student population
 - Teacher must hold an appropriate regular education license to appear as properly certified to teach a course with a student population of RG

The TLC Status Report uses a wide variety of data from many different collections. Taking time to verify that EMIS data is correctly reported will result in a clearer, more accurate TLC Status Report.

- Have you reviewed your EMIS data for accuracy and completeness?
- Are all courses and teaching staff appearing on the report?
- Have you shared the data with staff who can assist with data verification?

Certification and Licensure Search

This resource was created to assist districts in validating data that appear on the Teacher Licensure Course (TLC) Status Report generated by EMIS. For a list of the current subject codes, please see EMIS Manual Section 4.7. *This search has been updated for FY22.*

Link 2 Search for Regular Teaching Certificates and Licenses

This search is for situations where a course master has been submitted and the student population is PR or RG (i.e., regular education courses). Every permissible combination is not found in this search. For instance, situations in which a teacher is required to have multiple teaching fields or multiple credentials do not appear.

Note that the general rule for elementary credentials (i.e., Kindergarten-Primary (KP), Kindergarten-Elementary (KE), Elementary (EL), Early Childhood (EC)) allows the teachers who hold these credentials to teach any course within the relevant grade range. These situations are not reflected within this search tool. An exception to this rule is for those initially hired on or after July 1, 2013, to teach physical education. These teachers must be licensed in PE and are included in this search tool.

For questions regarding Invalid_Cert reports, please contact EMIS via the helpdesk. For questions regarding teacher assignments, please contact the Office of Educator Licensure.

Quick Check

The TLC Status Report checks against the CORE database to determine if a teacher is properly certified to teach a specific course. Searching the database can aid in troubleshooting the report.

- Are you able to use the CORE Educator Search Tool to view certification data?
- Can you search using the Certification and Licensure Search by certification or subject code?
- Are you involving your district's Human Resources staff in this process?

 - Proper Cert Flag = Y
- **Filter on TLC Result Code TL0002 (Informational)**

 - The new Equitable Access Data Analysis Tool uses every Student Course record that the district reports. Report all your courses for all your students

57

Not Properly Certified - No Students in Course

Filter on TLC Result Code TL0005 (Critical)

- Student Grade Count columns for this course will contain blank values
- Verify that no students are enrolled in the course
 - Core courses reported with no students can negatively impact the ESSA report, so it is recommended to not report empty core courses to EMIS
 - These courses could negatively impact CTE funding. If this is a future term course, schedule students into the course or you will need to request an override from CTE if it is not CTE FTE funded

58

Not Properly Certified - No Students in Course, cont'd

Continue filtering on TLC Result Code TL0005 (Critical)

- Are there students being reported as enrolled in the course?
- Check the dates to be sure they are aligned
 - Calendar start and end dates
 - Uses the most common calendar dates for the majority of students in the course
 - Course Master (CN) Record start and end dates
 - Staff Course (CU) Record start and end dates
 - Student Course (GN) Record enrollment start and end dates

59

Not Properly Certified – Credential/Course

Filter on TLC Result Code TL0006 (Fatal)

- No Current Credential or Incorrect Student Population
- Staff not certified to teach this subject code or student population
 - Check certification to see if they can teach the subject code
 - Verify the student population, is it correct?
 - Check the students who are enrolled in the course to verify that they align with the student population element
 - Verify the grade levels of the students enrolled in the course
 - This result code can sometimes be generated instead of TL0009 which is the grade level check
- Filter by that staff member to see all courses and student populations to verify

60

Not Properly Certified – Credential/Course, cont'd

Filter on TLC Result Code TL0006 (Fatal)

- No Current Credential or Incorrect Student Population
- When CTE teacher is on the TLC Status Report as not properly certified, is it necessary to request a CTE override for that teacher?
 - If granted, the override will allow the CTE FTE funding to flow but does not change that the teacher is not properly certified
 - Teachers will continue to appear as not properly certified on the TLCS report even when an override is granted
 - VM overrides are now automated
 - Questions regarding CTE overrides can be sent to
 - CTETeacherOverride@education.ohio.gov

Not Properly Certified - Substitute

Substitute Credential for traditional districts

Filter on TLC Result Code TL0007 (Fatal)

- A long-term substitute can appear as properly certified when reported by a community school
- Substitute teachers who are providing instruction and assigning grades should be reported as the teacher of record, even if the teacher will be returning

Quick Check

The TLC Status Report performs teacher certification checks using your EMIS data, as well as data from other LEAs, against the CORE database. Verify that your data is correct prior to the close of the Initial Staff and Course Collection.

- Are you reviewing the TLC Status Report regularly?
- Are you reporting data accurately to EMIS?
- Are you working with district staff to verify the data?

67

Summary

- The TLC Status Report contains both data to verify and issues to correct
- Some issues can be corrected, and some are simply stating the fact
- Work with district staff to verify that the data is both correct and complete
- “No errors” does not necessarily mean that your data is complete and accurate
- Use Excel functions to make troubleshooting easier
