

Troubleshooting Federal Child Count Reports

1

The Ohio Department of Education funds development of EMIS training materials as part of the EMIS Alliance grant. There is an expectation that ITCs will utilize these materials in training provided to your districts. That said, there are restrictions on use of the EMIS Alliance materials as follows: Materials developed as part of the EMIS Alliance program must be provided at no cost to your training participants. If you utilize the EMIS Alliance training materials – in whole or in part – you must not charge participants a fee to attend the class where the materials are used. Likewise, you may not use the materials or any portion thereof in any event where a fee is charged to attend. Exceptions must be approved in writing by the Department of Education in advance of scheduling/promoting any event which may violate these restrictions.

Questions regarding appropriate use of EMIS Alliance materials, or requests for exception to the restrictions noted above, should be directed to Melissa Hennon [Melissa.Hennon@education.ohio.gov].

Overview

- The Federal Child Count (FCC)
 - Includes students with disabilities who are receiving special education services according to their IEPs as of October 31
 - Is used in determining the amount of Special Education Part-B IDEA and Early Childhood Special Education funds allocated to the state
 - Is collected from all LEAs except for ESCs and JVSDs through the Education Management Information System (EMIS) and is submitted to the US Department of Education (USDOE)
- This presentation will focus on troubleshooting the EMIS FCC Reports, which are generated throughout the EMIS data submission process

EMIS Data Collections and the FCC Snapshot

- Collections containing the FCC report
 - Beginning of Year Student (S) Collection
 - SOES Beginning of Year Student (S) Collection
- Collections are scheduled to close December 21, 2020
 - FCC will close when the above collections close
 - There is no appeal for the FCC

Quick Check

The Federal Child Count Detail Report contains student detail data as it pertains to the count. This report is critical in the data review and error correction process and should be carefully reviewed for accuracy and completeness.

- Are you using the most recent version of the report?
- Are you able to open and format the CSV report to begin the review process?
- Can you apply filters to all columns?

Who is included in my FCC?

- In most cases, students count at their resident district except for students attending -
 - Community Schools
 - STEM Districts
 - Ohio School for the Blind
 - Ohio School for the Deaf
 - Buckeye United (DYS)
 - Pilot Programs
- Non-Public students receiving related services count at the traditional district providing the related services if active IEP event is reported as of October 31

Who is not included in my FCC?

- Students with a disability as of October 31, who are not being reported with an active IEP event as of October 31
- Students reported with the following IEP outcomes
 - IEPR – IEP Complete – Parental Refusal
 - IENS – IEP Complete – Not Served
 - IEDP – IEP Resulted in Due Process
- Refer to the FCC Level 2 Report Explanation, section “Include in USDOE Count” for additional information and exceptions

Quick Check

The Federal Child Count Detail Report contains data specific to students with disabilities. Understanding each column of data is important to begin analyzing the data for accuracy and completeness. There is not an error for everything, so time spent reviewing all data on the report is recommended.

- Are all students appearing on the report as expected?
- Has someone verified the data for accuracy?
- Has updated EMIS data been submitted to correct any inaccuracies on the report?

FED CCT Status Codes

FED CCT STATUS CODE and FED CCT STATUS CODE DESCR

- Indicates the status of a student as it relates to inclusion in the count
- Indicates that a data issue exists or that no errors are identified
- Data with no errors on the report should still be reviewed for accuracy

36

Quick Check

The Federal Child Count Detail report will display students who are and who are not included in your count. The report will also indicate students with issues preventing them from being included. Check this report often as it can be effected by another entity's EMIS reporting.

- Have all status codes been reviewed, and all reporting issues corrected?
- When corrections have been made in the student information system (SIS), has that updated data been submitted to EMIS?
- Based on inclusion criteria are all of your special education students being counted correctly?

Understanding Statement of Assurances

- The report includes
 - only students who have a FED CCT Flag = Y
 - all students age 3 to 5 in the first category
 - students age 6 to 21 in each disability specific category
- Using the above criteria the next series of slides will match the FCC Detail Report against the FCC Statement of Assurances Report
- When you are told that the counts on this report are incorrect, filtering allows you to show which students are included or not included

Arrange All

With two spreadsheets open at the same time, from the View tab select "Arrange All" and then "Vertical" and "OK"

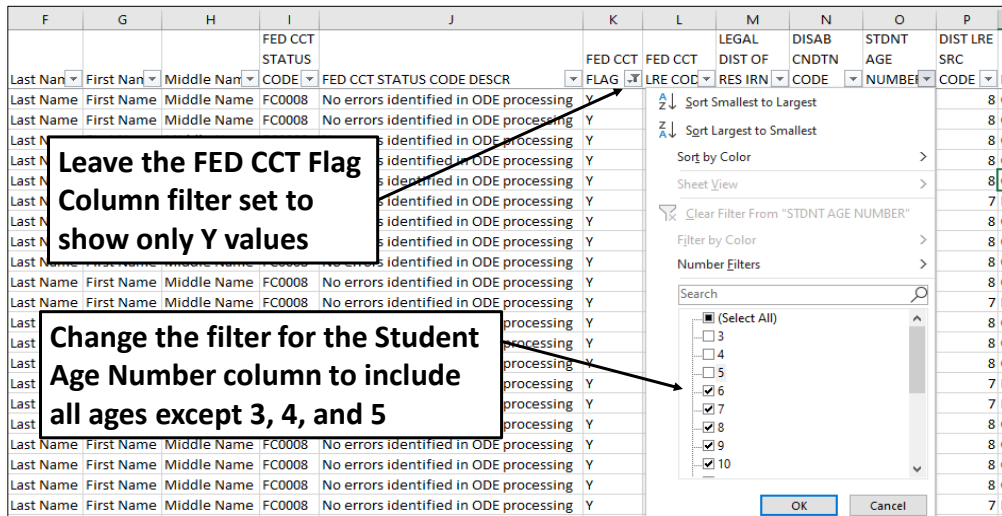

Arrange All cont'd

“Arrange All” allows both spreadsheets to be viewable at the same time

Change the Student Age Filter

Leave the FED CCT Flag Column filter set to show only Y values

Change the filter for the Student Age Number column to include all ages except 3, 4, and 5

Add a Third Filter

Add a third filter in the DISAB CNDTN CODE column

Select one disability code at a time

Quick Check

The Federal Child Count Statement of Assurances Report is derived from the same data that is on the FCC Detail Report. Using filters, you can match the data between the reports. The Statement of Assurances is sometimes requested by auditors.

- Can you match the data between the two reports using filters?
- Are you seeing the numbers of students that you were expecting?
- Has this data been shared with others in your district?

49

Summary

- The FCC Reports contain both data to verify and issues to correct
- Some issues can be corrected, and some are simply stating the fact that the student cannot be included in the count
- Work with district staff to verify that the data is both correct and complete
- “No errors” does not necessarily mean that your data is accurate
