

## October 2023 PowerSchool Ohio State Release available 10/24/23:

- The (FA) Student Assessment is updated to remove the valid score option of “BL” from the new Reading Diagnostic (RD) & Tier 1 Dyslexia Screener (DS) test types & change the wording for the “BLW” score option to Below/Below Level.
- Graduation Pathways Core Credits Section is updated as follows:
  - Core Area FIN is moved out of the Social Studies section even though the subject code is in that section of the manual. Per ODE – **Financial literacy cannot count for social studies credit.**
  - Do not include any overages for the CORE Area Code of PHE or HTH in the total credits earned.
  - Update the Science section to not allow SCO as a 3<sup>rd</sup> option when the first 2 credits are SAP & SAL.
- Completed Report Status Improvement – now shows if reports have errors on the Completed Reports page – example:

- (may need to Refresh)

- (FS) Student Standing Update – Corrected the error that was displaying when deleting an FS record even though the record was still removed. Fixed a display issue for the new Sent to Reason of EX as well.
- Local Classroom Code (LCC) Improvement – Change to the configuration to remove the zero fill to 20 characters and replace with spaces. Impacts CM, CN, CU, CV, FR and GN.

- New Import Capability added for Reading Diagnostic (RD) and Tier 1 Dyslexia Screener (DS) – please note this may require some file manipulation prior to

import:

### Reading Diagnostics (RD) & Dyslexia Screening (DS) Import ★

**Directions For Import**

This import is designed to populate student FA records, *Start Page > Student Selection > Ohio State Information - Student Assessment Record (FA)* from a file provided by a test vendor for the following assessments:

- RD (Reading Diagnostic) (.csv)
- DS (Tier 1 Dyslexia Screener) (.csv)

**Accommodations**

- RD always set to \*\*, DS-Users would need to hand key the appropriate accommodation value if the student received EL, IEP and/or 504 accommodations.

**Student Matching**

- If provided, the State Student Identifier (SSID) or the Student\_Number.

- [School Level Table Layouts](#): This resource provides the table structure for School-level CRDC data.

Nov release or plan B – Dec 5 release

New FN element - Count of Graduation Credits at Entry – will be a sum of the credits in historical grades upon completion of the FN report (similar to how the present, excused and unexcused populates on the FS record). Will be display only with no override, if incorrect make needed changes to historical grades and/or courses.

Tips of the day –

If the student is marked as Exempted from Physical Education Graduation Requirement=Yes, then the student now needs 5.5 elective credits to meet the minimum state requirement of 20 total credits. Could it be marked yes in error?

New CM/CV records not pulling – good news - re-enter one with the new format and all will extract. Bad news, all will need re-entered after the October release that removes the zero fill-just think of it as your double check 😊

Known Issue: The (FS) Student standing record is not calculating attendance correctly for the new sent to reason of EX with services.

Update on Discussion Item – Related Services End Dates are no longer a fatal error in the data collector as of last Friday morning.

**Next Meeting – November 21, 2023**

**November Release is scheduled for 11/21/23**

**December Release is scheduled for 12/19/23**
